Boy Had Fits For 6 Years

Best doctors gave him up—cured by DR. A. W. CHASE'S NERVE PILLS

Mrs. J. D. Palmer, 38 Park St., Amsterdam, N. Y., writes: "When six years of age my boy began to have fits. They came on in the night. He would make strange noises, stiffen out, froth at mouth, face would twitch and sometimes turned purple. After the fit he could not talk.

"The family physician said all he could do was to keep them down somewhat. The second physician pronounced trouble Jeffersonian epilepsy, but could not cure him. He suffered for six years and before beginning the use of Dr. A. W. Chase's Nerve Pills had three fits in about five days. He has taken seven boxes and has not had the symptom of a fit since beginning this treatment five months ago. His color has greatly improved; he is not nervous and irritable like he used to be, and we consider his cure a most remarkable one."

BUILDING CLOSED TEMPORARILY

Board of Directors and Others Interested in Y. M. C. A. So Decide

IT IS UP TO THE CITIZENS Association Must Have More Financial Support or it Will Have to Quit

A meeting of the board of creditors of the Y. M. C. A., together with a number of the creditors of the association, was held at the association building Friday evening, at which W. H. Day, of Chicago, international railroad secretary, was present. The situation as regards the local association was gone over thoroughly and the wishes of the creditors ascertained so far as possible.

H. F. Michael, president of the association, reviewed the affairs of the association for the past three years, after which the matter was informally discussed at length. Mr. Michael stated that while the board had undoubtedly made mistakes, it had acted on the best judgment of the members and they had individually dug down deeper in their pockets than they had asked of others.

One mistake, he said, had been that of giving a ticket with each donation to the fund at the time of repairing the building. This action practically robbed the association of a large part of its revenues for the following year, which of course left it in debt. Another mistake, he said, had been that they had been unable to get a man who seemed to have the faculty of getting in touch with the shop and railroad men. The association should, he believed, be a railroad association first and attempt general work as a secondary proposition. The town young men would, he thought, come in if the shop men were there, but there was some reluctance among the shop men to crowd in where the town men were in the predominance.

Mr. Day expressed the opinion that while the situation was serious in Brainerd it was by no means hopeless. He believed that a fresh start should be made and should be made right. One mistake made in Brainerd was for the board to attempt to make the association self supporting. He said that there is not an association in the United States which is self supporting, and that this is the case even where the association has dormitories which make a permanent endowment. In practically every city in the United States from 20 to 50 per cent of the expenses have to be borne by contributions, either in the form of heavy railroad appropriations, or by subscription.

Another mistake, according to the international secretary, had been the taking for secretaries, young men just out of the training work. The work of putting an association like this on its feet demanded the best efforts of a man of mature and successful experience. Such a man he said, could command from \$1200 per year upwards in the association work, and he believed it would be useless to entrust the work of the association in the hands of a less capable man.

After carefully considering the situation the plan of future work was outlined about as follows, on the recommendations of Mr. Day. First, that the association building should be shut up temporarily, for at least a month, until a satisfactory man could be secured to take hold of the work, and to conduct a campaign for the purpose of raising funds. He expressed the opinion that it would be easier to raise money to take care of the indebtedness of the association and to fit up dormitories in the upper story of the building than to raise it simply for paying off the indebtedness. He would make the subscriptions upon the raising of a certain amount, for a specific purpose, and he believed that this could be successfully accomplished with the right man at the helm. When the association reopened the building all cards now outstanding would be extended the length of time which the building was closed, so that no ticket holders would be defrauded.

He had in mind, he said, one or two men who were working in the south, who because of malaria, were com-

pelled to return north, one of whom he believed could be secured to take charge of a campaign and perhaps remain permanently.

It was suggested that hereafter an attempt should be made to hold the classes and night schools of the association in the library of the Northern Pacific shops, as the room was more central to the shop men and would permit the use of the upper story of the association building as dormitories. It was estimated that there could be sixteen beds placed therein, which would be occupied mostly by train crews who eat and often sleep in their cabooses and do not care to go to hotels just for a bed.

The creditors present all expressed themselves as willing to do anything in their power to have the association continue its work. Mr. Michael suggested, and the suggestion was heartily endorsed by Mr. Day, that a committee of representative business men be requested to audit the books of the association for the past three years, or since the commencement of the repairs, about three years ago, present a statement for publication, prior to the commencement of the campaign for funds.

It was agreed by all the workers present, that unless the citizens would take hold and cooperate financially as well as morally and physically with the work of the association, the only thing to be done was to sell the building and pay off the debts and close up. This certainly would be a very poor advertisement for a rising city like Brainerd, and a poor move financially, as without a doubt within a decade, after the opening up of the Cuyuna range, it would become necessary and be deemed wise by the citizens to raise money for another building.

One creditor raised the question of extravagance on the part of the management, citing the billiard tables. As a matter of fact the tables were bought by certain members who pledged their personal credit therefor, and in addition to making the payments on the table they have brought an additional revenue of about \$15 per month, which has been turned into the general fund.

Duluth Diamond Drilling Company Purchased Property Here for That Purpose

One of the most hopeful indications in the iron situation is the purchase by the Duluth Diamond Drilling company of the house and lot owned by N. W. Betzold, just north of the spur track of the Northern Pacific railway, on South Broadway. None of the officials of the company are in the city, but it is understood that the company will use the ground for the storage of drills and perhaps for the erection of an office. At present they are occupying the addition to the Pearce block which was built last summer.

120 CAR LOADS MACHINERY

Cuyuna Range Railroad Contracts to Put Them to Kennedy Mine This Winter

A Soo freight came into the mines with twenty cars all loaded with machinery for the improvements being done. While the new railroad does not make any attempt to run regular freights into the mines, they have a contract to run 120 cars of machinery and mining equipment during this winter. When this contract has been completed the work of ballasting will be commenced and no attempts will be made to travel over the rails, only as the ballasting is completed.

The six wells which were put down by the Bullock Bros., who are old range drill men, have been turned over to the company at Cuyuna. The average depth made in each well was approximately 160 feet, and a fine flow of pure water was in each case obtained. This firm will now resume its old style of drilling and exploration work for iron ore. They have made arrangements to start drilling on the north side of the river from the Kennedy mine in Rabbit lake.—Aitkin Republican.

MUCH BUILDING WILL BE DONE

Four Brick Business Blocks Will be Erected in Brainerd This Summer

THREE WILL BE THREE STORIES

All Will be Handsome Structures and Will Add Much to Prosperity of City

As predicted some time ago there will be more business building done in Brainerd the coming year than for some time past. At least four large business buildings will be erected this spring and it is probable that there will be others.

The announcement was made in these columns in a recent issue of the new building which is to be erected by Thomas H. Beare for H. F. Michael. This building will be 50x100 feet in size, and two stories high. It is said to also be a provision of the lease that if desired by Mr. Michael the first story is to be extended back to the alley, making a total depth of 140 feet, at any time, at a fixed additional rental.

This is the only building for which the plans have been made public. That the Columbian block will be rebuilt, however, is a certainty. The building, it is said, will be 140 feet in depth, running clear to the alley. The entire floor will be occupied by D. M. Clark & Co., who will also occupy the basement. The second story will be occupied by offices or flats and the third story by lodge rooms. It is understood that the Masonic fraternities will be the lessees of this portion of the building. While the parties who control the property have not gotten their plans fully matured it is understood that there is a strong company being organized to handle the building.

R. R. Wise states that he will build a three story brick block on the lots between the sits of the old Columbian block and Laurel street. Mr. Wise has not the plans completed but it is expected that the building will be extended west to the alley, making it the same size as the Citizens' State bank building. He states that he has no lease on any portion of the building, but that there have been several applications for nearly all the space therein. The second story will probably be finished off for offices, while the third will be it is said, fitted up for lodge quarters. Mr. Wise states that the building will be first class in every respect. It is rumored that it and the building to be erected on the Columbian block site will be built in architectural harmony, and combined will be one of the finest blocks in the state outside the twin cities and Duluth.

The John Coates Liquor company, which recently acquired the Schwindeman property, just south of the Imperial block, will erect a three story brick building thereon as soon as the weather will permit. The main floor and basement will be occupied by their business and the two upper floors will be fitted up as modern, up-to-date residence flats. This building will be up to date in every respect and will be a decided addition to South Seventh street.

MAY CLOSE ALL SALOONS

McDonald Murder and Suicide Case at Walker Called to the Attention of U. S. Authorities

A Sauk Center telegram is authority for the statement that a letter received from Washington is authority for an alleged rumor that all the saloons on the Indian reservation territory may be closed because of the alleged constant and continual infractions of the liquor laws by the brewery interests and saloon men.

Special Agent Johnson is in Washington, called there by the Indian commissioner, to give a thorough explanation of the situation. Petitions and complaints have been sent to the Indian reservation, it is alleged, though the saloons were notified to stop selling, not one has quit, nor is being compelled to close.

The McDonald murder case at Walker, where there is a saloon on Indian territory, and another case in which a boy got liquor and was nearly frozen to death, has been reported to Washington.

REV. BERRY IS MAKING GOOD

Former Pastor of People's Church Very Successful in Y. M. C. A. Work

W. H. Day, international railroad secretary of the Y. M. C. A., who was in the city Friday, states that Rev. J. E. Berry, former pastor of the People's church, of East Brainerd, has made good in Y. M. C. A. work. He is now in charge of the work among the laborers on a large aqueduct being constructed for the city of Los Angeles. He has a line about 200 miles long under his charge and has four assistants. Mr. Berry was married last Christmas to a young lady who was a college mate at Osceola, Iowa. Miss Alice Berry, a sister of Mr. Berry, who kept house for him while he was here, is now residing with Mr. Day's family in Chicago and is studying music at the Moody institute.

WASH-DAY GRIEF

What an exasperating thing it must be for a woman on wash-day after getting all ready for the week's washing to find the family tub has shuffled off its hoops? But wood will shrink and hoops will fall.

In their place we offer galvanized iron tubs which are far superior in every way to a wooden tub, as they never leak, rust or break, and there are no hoops to fall off. They are lighter and easier to handle.

Of course we sell wooden tubs if you want them.
